

K-LOVE radio station is an important part of the community here in Colorado. It provides a safe listening place for families & others who don't want to endure the crudeness of some other radio stations. If K-LOVE were to be changed to an LPFM station many people who currently listen to the station would be unable to do so. They would be missing out on the valuable content that K-LOVE provides to its listeners. Please continue to provide this valuable station with an FM translator so that the many listeners who currently listen to K-LOVE will be able to continue to do so.
